VISIT SAN CLEMENTE CHURCH AND LORETO

Visiting historical San Clemente Church, from the year 1131, will be one of the highlights of your stay. More impressive with the lighting during the night-time.

Home to temporary & permanent various exhibitions and art works, known as the “Island of Art” by locals, San Clemente Island is a proud supporter of the art world.

WORLD RENOWNED ART EXHIBITIONS

AHAD SAADI PARADISE

Ahad Saadi's textile-based works are distinguished by their layered compositions of diverse fabrics, creating rich, tactile surfaces that evoke both memory and identity. Drawing subtle inspiration from Oriental aesthetics, his pieces often incorporate intricate patterns, delicate embroidery, and warm, earthy tones reminiscent of traditional Eastern craftsmanship.

In the realm of modern art, where the canvas becomes an open sea of exploration, Norrem emerges as a navigator on this profound journey. Renowned across the Middle East for his bold, large-scale abstract paintings, he invites us to venture beyond the superficiality of every day live and join him into a world rich with vibrant expression and deep introspection.

SEUNG HWAN KIM ORGANISM

Highly anticipated "Organism" exhibition by renowned Korean artist Seung-Hwan Kim represented by Harmonie Nine Gallery, featuring captivating sculptures that push the boundaries of the medium and explore the interplay between nature, light, and color in our lush gardens. With an impressive artistic journey and international recognition, Kim's "Organism" series skillfully captures the intricate changes in natural forms, representing the order and eternal nature found in the world around us.

When we hear the words “black” and “abstract,” no doubt the first thing that comes to mind is Malevich’s Black Square, exhibited in 1915: a roughly 80x80 cm canvas that anyone could paint. According to Malevich, the Black Square is “the zero point of art.” It is the erasure of all art history up to that moment. It draws from ancient geometry and arithmetic, where forms and numbers were highly symbolic and mysterious.

Unfolding across the historic spaces of the island of San Clemente, the artist has installed a series of site-specific works on view in the island’s church, alongside a planned custom-made intervention in the San Clemente Palace Venice.
